

React Js

Angular Js

Vue Js

What is core Technology Behind This : Javascript

What is behavior of Javascript.

Furniture.

Yes is Client.

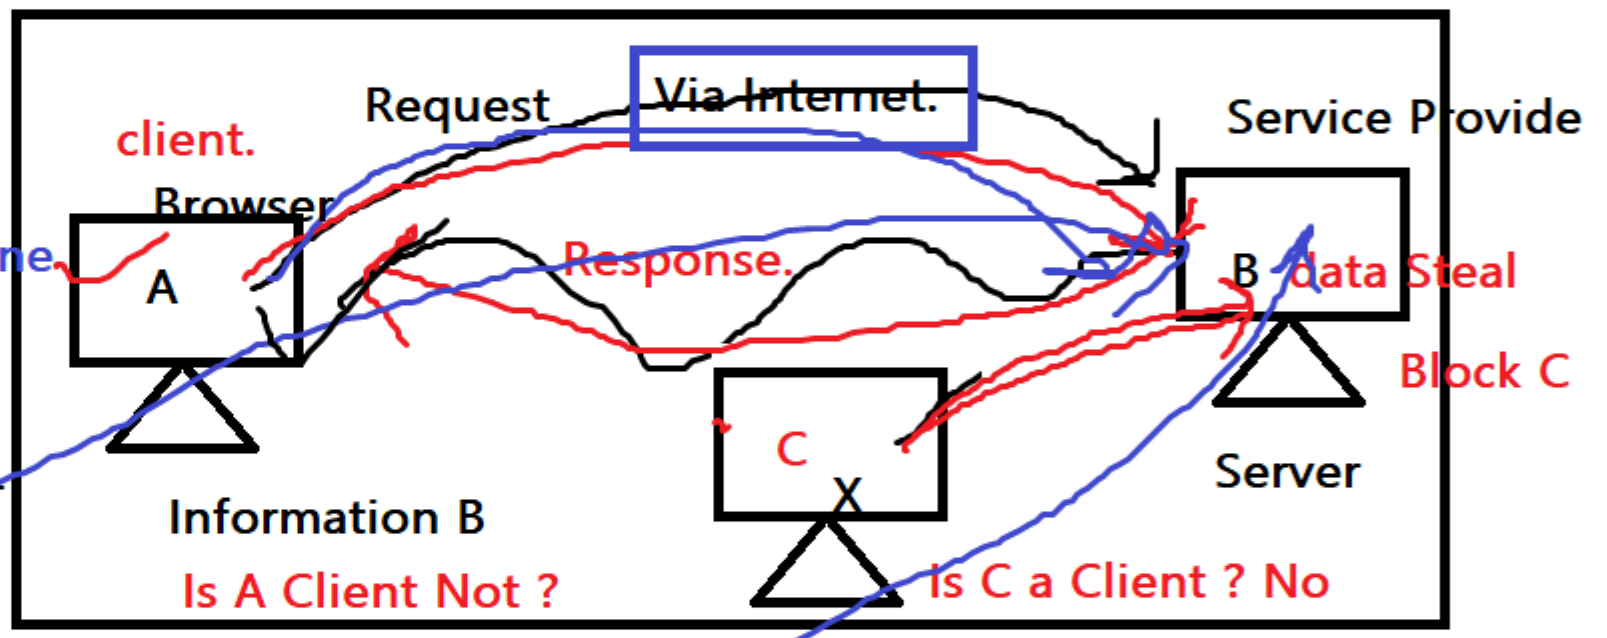

Even Though Mr. Gupta First Time.

Already They Know Each Other.

Next Question ?

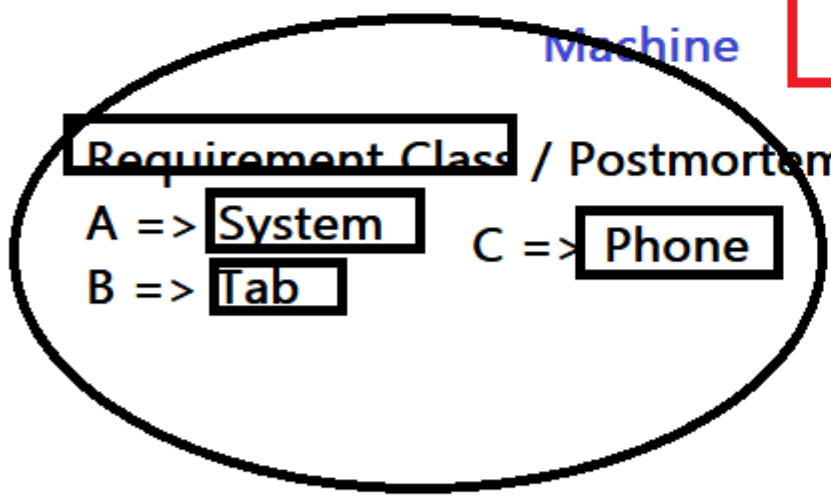

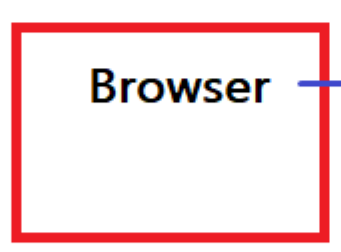

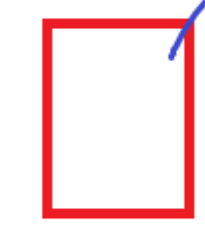

How A can be become B

if Requirement of Customer is Repeated, He Automatically, Client.

A and B

A Client Machine

Browser => Internet => Server Request.

In Web Tech :- Client => Browser

Server :- Can be Service/ App/ Third

Application/Program

Browser => can never be server.

html/css/Js/PHP

Facebook => php NO.

Facebook Yes No => yes

Browser (Client)

Js Client Side

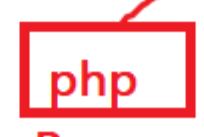

Cleint and Server : Request/Response

Browser : Request => Url (Web-Address.) using Url.(Uniform Resource Location.)

Server : Response.

Proof :- facebook.com => Server => Response.

Server-side.

Response

facebook.com

Server

php => Installed.

facebook => code

Server

Server :- Js => Alert
